

Erik Buell & The Thunderbolts "One More Night"

Visit "[One More Night](#)" on [MotoLyrics.com](#)

When it's night, we're so right, make it last forever.
When it's day, then we fight, don't want to see you
ever.

There's only one thing we should do...

Let's spend one more night together, you know we
want it girl

Let's make it one more time,

It ain't like we've got something better.

Go to bed, it's so fine, how good can something be.
Go to work, change your mind, now you want to be
free.

There's only one thing you should do...

Let's spend one more night together, you know you
want it girl

Let's make it one more time,

It ain't like you've got something better. Now is
it...

Wake up on the floor, still wanting more, sheets all
around us.

But you start up again, about what I do wrong, and I'm
on the bus

I'm gone!

Let's spend one more night together, you know I want
it, baby

Let's make it one more time,

It ain't like I've got something better.

Let's spend one more night together, you know you
want it, girl

Let's make it one more time,

It ain't like you've got something better.
