Motivate.
We've got to motivate ourselves.

Sane things happen
Every day and every night
And I know
All I wanna do is hold you tight

When I look around
I see things that are going down

Motivate.
We've got to motivate ourselves.

Do you open your eyes
To the things that we're fighting for?
'cause I know
Don't wanna lose like we lost before.

When I look around
Our satellite's been on the ground

Motivate.
We've got to motivate ourselves.

Think of the way
Think of the way that you walk around
Do you open your eyes
To the things that are going down?

When I look around
I see the world's been upside down

Motivate.
We've got to motivate ourselves.
Motivate.
