Yeah all hell is breakin' loose
Feels like my head is in the noose
The horse ruins watch me drop
My head snaps back then I'm gone

Taming of the demons
Living sacred lies
Taming of the demons
The devil is about to die

Rise from the grave
You'll be here tomorrow and gone today
Bag of grooves some alcohol
Help me get through it all

Taming of the demons
Living sacred lies
Taming of the demons
The demons about to die

The taming of the demons
Living sacred lies
The taming of the demons
The demons about to die

So yeah you die.
