"Under A Black Cloud"

Many reasons can't see eye to eye
Out of focus these words I cry
You taught me how to lie, cheat and steal
You blurred my visions thoughts unreal

Under a black cloud
Steadfast dark shroud
Screaming so loud
Thoughts are not so proud

You filled me with anger, hate and disgust
Tangled truth with creed and lust
I hide you with psychedelic dream
Try to control you with euphoric leaves

Swirling mist seems to relieve
My stranded soul absurd to conceive
I hide you with psychedelic dream
I try to control you euphoric leaves
