

Excuse Me Moses "Better Than Nowhere"

Visit "[Better Than Nowhere](#)" on MotoLyrics.com

Just put your glasses away
And place your beautiful head here on my knees
Don't think of anything else
I'll place my hands on your face
And your tears will dry and you will see
That you feel save as nowhere else
You'll come close to me and you'll feel me
Don't you think that this love will never die
And it's better that nowhere at all

It's better than nowhere

Just let you fall into me
There are those stars in the sky
So, can't you see
Don't think of anything else
No, no
I'll place my hands on your face
And your tears will dry and you will see
That your discomfort disappears
You'll come close to me and you'll feel me
Don't you think that this love will never die
And it's better than nowhere at all

It's better than nowhere

It's better than nowhere
Better than nowhere
Nowhere, nowhere, nowhere ...

It's better than nowhere

It's better than nowhere
It's better than nowhere
It's better than nowhere
No, no
It's better than nowhere
It's better than nowhere
