Pull yourself together, girl
I don't know what you're thinkin'
What is it that's keeping you askin'
I could tell you lots of things
They're gonna turn out useless
Sometimes you need to challenge your questions

You don't need to know everything
You don't need to know everything
You don't need to know everything
You just need to love and to live

Take your time to hurry up
You don't know what you're missin'
The world is going 'round and around and around
I could show you lots of things
They're gonna turn out shameless
Tonight you need to challenge your questions

You don't need to know everything
You don't need to know everything
You don't need to know everything
You just need to love and to live

See me walkin' selfish out the door
Hoping you're not asking for some more
'Cause you know that I'm gonna go
You don't need to know
You don't need to know
You don't need to know

Oh, you don't need to know everything
You don't need to know everything
You don't need to know everything
You don't need to know everything
You just need to love and to live
Right here, right now

You don't need to know
You don't need to know
You don't need to know
