Inflammation of the foreskin  
Reminds me of your smile  
I've had balanital chancroids  
For quite a little while  
I gave my heart to NSU  
That lovely night in June  
I ache for you my darling  
And I hope you get well soon.

My penile warts, your herpes,  
My syphilitic sore,  
Your monilia infection  
How I miss you more and more  
You dobie's itch, my scumpox  
Our lovely gonorrhoea  
At least we both were lying  
When we said that we were clear

Our syphilitic kisses  
Sealed the secret of our tryst  
You gave me scrotal pustules  
With a quick flick of your wrist  
Your trichovaginitis  
Sent shivers down my spine  
I got snail tracks in my anus  
When your spirochetes met mine.

Gonococcal urethritis, streptococcal balanitis,  
Meningomyelitis, diplococcal cephalitis,  
Epididymitis, interstitial keratitis,  
Syphilitic choroiditis, and anterior u-ve-i-tis.

My clapped-out genitalia  
Is not so bad for me  
As the complete and utter failure  
Every time I try to pee.  
My doctor says my buboes  
Are the worst he's ever seen  
My scrotum's painted orange  
And my balls are turning green.

My heart is very tender  
Though my parts are awful raw  
You might have been infected  
But you never were a bore  
I'm dying from your love, my love  
I'm your spirochaetal clown  
I've left my body to science  
But I'm afraid they've turned it down.

Gonococcal urethritis, streptococcal balanitis,  
Meningomyelitis, diplococcal cephalitis,  
Epididymitis, interstitial keratitis,  
Syphilitic choroiditis, and anterior u-ve-i-tis.
