Gew Janna woman makes me feel so cold

Gew Janna's sister, Anna somthin' she sold

Those memories always flowing, flying so real

Orbit me high Gew Janna until, until, until I

Until I die

Gew Janna why did you leave me

Do do me magic lover, do do me well

Laid back with sweat and waiting release my hell

Hell ain't the kind of feeling I want to feel

Orbit me high Gew Janna until, until, until I

Until I die

Gew Janna why did you leave me

And then I saw a vision of the world before me

Like a dream I dreamed a million times

And the thrill I got when I was there

Believe me I was high, so high
