She has a,
she has a beautiful vein
She has a,
she has a beautiful vein
and she showed it to me,
yesterday.
He has a,
he has a beautiful vein
He has a,
he has a beautiful vein
and he showed it to me,
yesterday.
You have a,
you have a beautiful son
You have a,
you have a beautiful son
and if you give him to me,
I'll give it to you.
She had a,
she had a beautiful vein
She had a,
she had a beautiful vein
and I buried her body,
ten years ago.
