[Luni Coleone]

I'm out to make a mil nigga, so I'm ready for war, let's go

Hop in the low, let's jump

What the fuck you runnin' yo' mouth for?

It's Coleone bitch, I'm ready so what you gon' do?

I'm higher than your bedroom, 'bout to stick you like this tattoo

Make a move nigga, you opened them death threats

Better run and hide with your bitch, that'll see your best bet

I'm a psycho, aim for the head when the lead blow

One less nigga, one less stanky hoe

Now who can fuck with me?

The type of nigga that'll grab the gun and say you stuck with me

Got these niggaz up on the run, my bitch bust quickly

So spread out, I'm coming through - wit a pump

Mistakin' my size you best prepare for the funk

Cause I'm a hostile nigga, got my shit cocked

A false move might get yo' punk ass popped

It's Coleone and I'm ready for war

Tryin' to make these hoe cakes not breathe no more

[Chorus] - X2

I'm ready for war

Nigga hop out the lo, let's go

I'm ready for war

Nigga hop out the lo, let's go

I'm ready for war

Nigga hop out the lo, let's go

Roll down the window

Nigga, let the gat blow!

[Luni Coleone]

Think you niggaz better back up, I ain't playin' no more

Murder, murder on my mind I'm 'bout to even the score

And it's mando - to catch a nigga slippin' with his pants down

Creep up from the back and peel his cap with about four rounds

I'm furious nigga, these curious niggaz get took  
For the own right, greedy ass niggaz must die  
I'm a sold-ier, poppin' the pist-al to get my mil  
Bitch you want some huh? Oh, you crazy as hell  
They call me Coleone, and I can ???? my ??????  
But I'm ready for war, let's go  
Out the window of a Lexo, wit a .4-4  
These niggaz don't wanna see me  
I'm thugged out, chasin' yo' ass wit a tec-eezie  
We kill 'em up -  
I flash about my cash, like Ted Capone  
Young hogs creep to the ????  
When the funk is on, you better watch yo' back  
Doja soldiers quick to fold ya, and I'm on the attack

[Chorus]

I'm ready for war  
Nigga hop out the lo, let's go  
I'm ready for war  
Nigga hop out the lo, let's go  
I'm ready for war  
Nigga hop out the lo, let's go  
Roll down the window  
Nigga, let the gat blow!
