She was a good girl to the bone
She didn't have a spark on her floor
What can I say
She was perfect in every way
She wasn't nasty
She wasn't dirty
She wasn't flirty
But something changed
And she moved on
Her reputation as a good girl
Going thin
She was sick and tired of being the same old girl
She knew
Something had to change

She's tired of being a good girl with nothin' wrong
She wanna get down low, low, low
She wanna go, go, go
She wanna get dirty
That's for sure
Cause'
She tired of being a good girl

Bad girl
(yeah)
She wasn't perfect anymore
She commit a crime several times
She walks away clean and right
But they really know that she needs help
Cause' she's taken it way too far
She needs to know when to stop
What happened to the good girl
That she used to be
She was nice
But not too mean
She was clean
Way too clean
But she's just too dirty
I saw in the corner and I asked why
Why she's gotta do this?
I don't know why?
She walked away with her guy

He ain't good for her
She knows right
But I don't think she gives a fuck

Chorus

She's running around
On the street
Looks like she's taken drugs
Or maybe weed
Someone needs to take her home
Where she belongs
Cause this ain't good for her
After that I took her home
I tell I'll help her out
It took a while
But she was fine

She's tired of being a bad girl with somethin' wrong
She doesn't wanna get down low, low, low
She doesn't wanna go, go, go
She wanna be clean
That's for sure
Coz'
She knows she can't do it anymore
