Iâ'm looking back at the memories
The strong chemistry
That was only between you and me
Now Iâ'm wondering
What happened to the love you used to give me
Cause Iâ'm miss every moment of it

Please donâ't walk away from this
I still want your kiss
Cause Iâ'm missing this
Please donâ't walk away
Still in love with you
No matter what they say
Baby no matter what Iâ'll obey
Just please donâ't walk away
Please donâ't walk away from this
I still want your kiss
Cause Iâ'm missing this
Please donâ't walk away
Still in love with you
No matter what they say
Baby no matter what Iâ'll obey
Just please donâ't walk away

I remember the way you looked at me
The way you use to touch me
I could feel my heart sink
Thought I found love
Thought I was enough
To be lodged in your memory

Please donâ't walk away from this
I still want your kiss
Cause Iâ'm missing this
Please donâ't walk away
Still in love with you
No matter what they say
Baby no matter what Iâ'll obey
Just please donâ't walk away
Please donâ't walk away from this
I still want your kiss
Cause Iâ'm missing this

Please don't walk away
Still in love with you
No matter what they say
Baby no matter what I'll obey
Just please don't walk away

don't leave me in the rain
Cause I'm feeling so much pain
To see us fade away

(piano comes in...)

I don't want our love to be the enemy
It's a mystery whenever you're here with me
I still want our chemistry
Remember our history
Please don't walk away

Please don't walk away from this
I still want your kiss
Cause I'm missing this
Please don't walk away
Still in love with you
No matter what they say
Baby no matter what I'll obey
Just please don't walk away
Please don't walk away from this
I still want your kiss
Cause I'm missing this
Please don't walk away
Still in love with you
No matter what they say
Baby no matter what I'll obey
Just please don't walk away

I'm already breaking
Please don't walk away
course
