Iâ€™ve been walking around with my head down lately  
And I feel like somethingâ€™s missing in my life donâ€™t  
know what it is  
But I know its been hurting me  
Causeâ€™ sex ainâ€™t the same  
If its not with you  
Love doesnâ€™t feel right  
If I ainâ€™t loving you  
Youâ€™re the only one in this whole damn world that  
makes me feel that Iâ€™m superhuman  
Youâ€™re the only one that gives love its meaning  
Like a fairytale  
But it ainâ€™t no fantasy  
This is real between you and me

Cause all I know is  
Sex ainâ€™t the same if its not with you  
Love doesnâ€™t feel right if I ainâ€™t loving you  
And every thought in my head is just about you  
Your driving me crazy (so crazy)  
Hoping thereâ€™s a cure  
But I donâ€™t think so  
All I need is you here by my side  
Youâ€™re my hero  
And if I had only 1 wish  
Itâ€™ll be about you  
Baby  
I love you

I feel like somethingâ€™s been eating away at my heart  
And I feel like shedding a tear every time  
Cause everything just reminds me of you

(piano plays...)

Waking up in the morning screaming your name  
Just some symptoms I have been experiencing  
Cause my broken heart wont let me live

Heard the other day  
Your going out with some girl  
And Iâ€™m just wondering

Will she ever replace what we had  
Scared of being lonely but that's how it is  
But all I know is

#### COURSE

Running through my head  
All the time we spent  
And I can't move on  
Though I'm stronger than this  
How can I forget  
All the times we shared

#### COURSE 2X

Looking around trying to find the cure  
Don't think any other man could take your place  
It's been like a circus  
Don't know when it will end  
But all I know is I love you
