it's stuck there in my memory  
what did you mean that night you had your thought out  
moment  
and the door is shut not to be opened until dark  
when you'd be on the right side and its after three  
could you care less care more not care at all  
i know you mean well yeah i mean well too  
this is the first time you showed me how you felt  
i know its what you want but shouldn't this be about me  
this is the last time i'll give you one more chance  
yeah you mean well well i mean well too  
it feels like everyone else time went on and on and on
