I bet you they won't play this song on the radio,
I bet you they won't play this new \$%^& song.
It's not that it's %\$(* or #*\$&^&* controversial
It's just that the @*%\$ing words are awfully strong.
You can't say ^&*@ on the radio,
Or \$@#! or ^&*% or 4*%*
You can't even say I'd like to ?:"* you someday
Unless you're a doctor with a really large ~!*%
So I bet you they won't play this song on the radio
I bet you they don't *&%\$ing well program it.
I bet you those &*(#ing old program directors
Will think it's a load of horse \$&!#
