Yo, sometimes when i be standin on stage, I'm Rappin to late,

ma niggas that think they can relate. I'm just spittin some rhymes, comitin some crimes, that you MotherFUCKERS! be fearin sometimes. When some people stare at you when your tryin to rap, i just want to tell them "What the Fuck do you want", you better know that, and when i send you to hell, I'ma send you some fuckin threatenin mail. If i be rappin so bad, i be gettin so mad cuz im fearin when i get older i'ma go to jail, or if jesus comes he might even FUCKIN throw me in hell. But if i end up in jail, and my birthday came, all im gonna get is-uh piece of shit on a plate!. But i just dont give-uh fuck what people think, they will just sink in my ass, thats what i think. So im just gonna keep rappin till i get distracted from all those bitches that think good in rappin. Sometimes i just want to spaz on ma dad, he fuckin gets me so mad, when he's arguin wit ma mother, he makes her studder, i just want to hit him and make hit the floot so he wont get up, and if he did and was gonna say somthin i would say "shut the fuck up" "leave me alone and give me the phone" to call the cops and tell'em to give me their gun so i can point it at your head and take 48 shots!..
