You said we met too late dear, I'm nectar you are wine
But we both know, sweet honey, that you'll catch me
down the line
(You'll catch me down the line, you'll catch me down
the line)

It's okay, my darling, please don't pay it any mind
I know what you're thinking, I can see your heart is kind
(I can see your heart is kind, I can see your heart is
kind)

Oh, everywhere I'm going now, everything I do
It all just keeps leading me right on back to you

I met you in the springtime but you found me in the fall
but like an apple in the garden still you tempt me most
of all
(You tempt me most of all, you tempt me most of all)

You say we met too late dear, I'm nectar you are wine
But we both know, sweet honey, that you'll catch me
down the line

(You'll catch me down the line, you'll catch me down
the line)

You don't have to explain it or wish it weren't that way
just keep me in your heart, dear, don't ever turn away
(Don't ever turn away, don't ever turn away)

Oh, everywhere I'm going now, everything I do
It all just keeps leading me right on back to you

So don't be sad, my darling, it's you that I adore
I'll take the love you've got for now and I'll be back for
more
(I'll be back for more, I'll be back for more)
