"Run Away With Me"

Meet me in the morning, or late at night
When the moon is out or when the sun is high
There'll be no questions, no more lies
Only come with me a while.

Won't you come along my darling, come with me
Come on my darling, run away with me

Though I did deny it, still you know it's true all I ever
want is you
I could love the thunder, the lightning and the rain
If you'd be mine again

Won't you come along my darling, come with me
Come on my darling, run away with me

Shadows are falling from a moon so bright
When you're near me all is right

Rivers will ramble, the winds are gonna blow
I wanna take you with me baby when I go

Won't you come along my darling, come with me
Come on my darling, run away with me

Though I did deny it, still you know it's true
All I ever want is you
I'm leaving in the morning, I'm going on my way
Just these words to you I pray

Won't you come along my darling, come with me
Come along my darling, run away with me
