The music played from the street caf  
All the people were passing in a distant haze  
When you walked by  
And I'm lonely and need someone to talk to  
I said Hello girl  
Would you walk with me?  
I got nowhere to go  
And I'd much rather be  
Taking a chance that you had more  
Than a fancy way about you.

So tell me girl,  
Where will it end, rescue me.  
The music you send  
I'll play in the end, rescue me.

The way you smiled was like a rising sun,  
You set a burning inside from which I should have run  
But you walked by  
And I was lonely and need someone to talk to.

You blew my mind just like a neutron bomb,  
You left a shell outside where I could never come from.  
Now you walk by,  
You say you're lonely and need someone to talk to

So tell me girl,  
Where will it end, rescue me.  
'Cause the music you send  
I'll play in the end, rescue me.

I should respect your point of view  
But what can I say when I'm in love with you,  
When nothing makes sense.  
I'm gonna take one more chance that you can love too.

So tell me girl,  
When will it end, rescue me.  
'Cause the music you send  
I'll play in the end, rescue me

The music played from the street caf.

Rescue me
