everytime i see you
with your exboyfriends
i feel jealous and
i feel so angry
you can do it on to me
and but why to me
i can't do like your on to me.....

i want you know volume my liver
like that i very love your self
and i want you know don't leave me alone
don't go back again with your exboyfriends
stay to be mine forever

you know why i feel jealouse
because that i love you
so don't do it to me again
i want to yours forever
and i'am not life again
if my life always without your self....

i want you know volume my liver
like that i very love your self
and i want you know don't leave me alone
don't go back again with your exboyfriends

stay to be mine forever 4x

i want you know volume my liver
like that i very love your self
and i want you know don't leave me alone
don't go back again with your exboyfriends

i want you know volume my liver
like that i very love your self
and i want you know don't leave me alone
don't go back again with your exboyfriends

stay to be mine forever
