oooooooo ohhhhhh

(verse 1)

my love for you  
is so strong  
nothing could ever  
feel so wrong  
my heart will never  
break when your near  
when i look up  
in the sky all i hear

(chorus)

don't look down  
take my hand  
i'm by your side  
just trust me now  
ohhh you'll be alright  
because in the night  
we always fly together

(verse 2)

every dream i have  
is of you  
it will never change  
i can't get my mind  
off the things you do  
your words of wisdom  
make me think

(chorus)

(bridge)

you can't make me love  
anyone else but you  
i'll love you forever  
because i'll always remember

(chorus 2)
