I've seen the answer many times, I've seen it in your eyes,
I feel the love in loving you, love I cannot hide.
I feel the love you're sending me, love that's from your mind.
It's not that we have got to try, 'cause everything is right.

Does it feel, does it feel, does it feel right?
Does it feel, does it feel, does it feel right?
Only tonight is the feeling inside gonna speak your mind.

I'm waiting for your message and I will understand.
I know exactly what you mean in every circumstance.
You don't have to explain to me the future or the past.
You know that there are no words that Ishindenshin has.

Does it feel, does it feel, does it feel right?
Does it feel, does it feel, does it feel right?
No words tonight, Ishindenshin inside is gonna speak your mind.

No words tonight, Ishindenshin inside is gonna speak your mind.
Only tonight is the feeling inside gonna speak your mind.
No words tonight, Ishindenshin inside is gonna speak your mind.

You know that there are no words that Ishindenshin has.
