"Bad Connection"

I'll find my feet and I'll walk away from here
It's over and you'll see that I'm wide awake and clear

It's a new day but if we mean anything
Come back put aside the memories

And like a bad connection I wanna fix
I'll turn my life around to make our ends meet

Hope you'd find me if I try to run away
If only I could look it in the face

I'll find my heart and I'll cut away the strings
Won't be attached to anything, oh oh
If only I could lay it down to rest

And like a bad connection I wanna fix
I'll turn my life around to make our ends meet
And like a bad connection I wanna fix
I'll turn my life around to make our ends meet
I'll turn my life around
I'll turn my life around
