### "Big Eyes"

Dry face stayin' inside t-shirt's  
Blood stained broken eye  
It's that top shelf painting pictures  
I can see through  
Big eyes turned away see me  
At last I'm here alone  
Last chance  
I remember didn't last too long  
High noon coming closer to realize  
All's gone all's gone  
Bull eyed on the outside  
I'm your sea gaze last in line  
It's that slow burn making movies  
I can live in  
Big ears turned away hear me  
This time I'm gone for good  
About face I surrender didn't last too long  
High noon coming closer to realize  
All's gone all's gone all's gone
