"Day To Day"

I left home and I went out on my own
I don't care if I'm welcome anymore

I'm day to day
I'm hanging on today
Today I'm day to day

Now I'm left with our hapless memories
Can't deny that you gave them all to me

I'm day to day
I'm hanging on today
Today I'm day to day
All we've seen can you push it all aside
I'm day to day
I'm hanging on today
Today I'm day to day

If I ever come undone
Let it fall upon my heart alone now
It's time for I won't come back again
Gone away and you're difficult to miss

I'm day to day
I'm hanging on today
Today I'm day to day
All we've seen can you push it all away hey
