So out of character lying there lifeless
I just wanna see your eyes
It's really not what but why
Wherever that you went that day
I'm sorry that we let it slip away away
How then can I explain without a word in edgewise
No I know I don't belong lying there lifeless
I just wanna see your eyes
It's really not what but why
Whatever that you took that day
I'm sorry that we let it slip away away away away
I just wanna see your eyes
And you'll be here before long,
Don't you worry I was only taking care of all the wrong
I just wanna see your eyes
It's really not what but why
Wherever that you went that day
I'm sorry that we let it slip
I'm sorry that we let it slip away away
