"Will I"

High higher than the black sky.
Through the stars I'll learn to fly.
Will I, will I get to say goodbye?
Will I, will I get to say goodbye?
Above, above all the fear we go
Where love it fades like a rainbow.
Will I, will I get to say goodbye?
I understand that I'm going away,
Far away from here.
But please understand that
I won't be gone alone.
We, we're here so do cry.
All, all the pirates and I.
Will I, will I get to say goodbye?
Will I, will I get to say goodbye?
