Fake you're full an' you feel tomorrow comin'  
An' you gotta do what you can do to get away  
With everything you want still get what you need

So you're slowin' down 'cause you've done it before  
You look at the floor an' you wonder when it's gonna  
Come, on up over your head, you can get some rest

Some trust in love, some trust in hatred  
Some trust in fea, some in violence  
Some trust in faith an' some trust in fortune  
Some trust in God an' some just get away

Oh, swear to God, I'm goin' to get it right  
Stay down side 'til I get my fill  
Take it all but it's fallin' through  
Done it before so maybe a little bit more  
Will make it easier, to get on through the door

Some trust in pain an' some trust in pleasure  
Some trust in union, some in innocence  
Some trust in fear, some trust in fortune  
Some trust in everyone, some just get away

Call it security, call it your purity  
Call it the words we pray, call it the sins, we say  
You never wanted it that way

Some trust in God an' some trust in country  
Some trust in love an' some in violence  
Some trust in diamonds, some trust in devils  
Some trust in fear an' some just get away

Get away, get away, get away
