

Fray "Take Your Time"

Visit "[Take Your Time](#)" on MotoLyrics.com

Take your time, I can wait
For all the love I know will be mine
If you yake your time
If you take your time

Take your time, though it's late
Heart strings will sing like a string of twine
If you take your time
If you take your time

Take your time and take mine too
I have time to spend
Take your time go with me through
Times 'till all times end

Take your time, I can wait
For all the love I know will be mine
If you take your Time
If you take your time

Take your time and take mine too
I got time to spend
Take your time go with me through
Times 'till all times end

Take your time, I can wait
For all the love I know will be mine
If you take your time
If you take your time

If you take your time
