Baby doll

Do you believe they'll catch you when you fall?

And when morning comes

The sun is gonna shine

Don't forget your minor key's

Your half lit cigarette

'Cause when morning comes

God knows that you'll be mine

So let me in

I'm ready to beg and to sing for my sins

Not leave it to chance and sweet coincidence

Well, that's just crazy and you know it's true

Well, they said you was long gone

I just laughed and said alright bring her home tonight

And I heard you was graciously put on

I just laughed and said good night, guess it's alright

Baby doll

The men who hang like flowers in you're hall

Are asking when

Your love is gonna show

And who knows why

The love you need will always pass you by

Well, I heard it's true

Your love is gonna grow

So let me know

'Cause I can stay or honey I can go

Just to wherever you tell me so

And find my place there and there I'll stay

Well, they said you was burned out

I just laughed and said come on, she's not burned

she's just gone

And it took me too long till I found out

Faces that you know the best oh well, I guess

And they laughed when you said you was leaving

Everybody knows you well except for me, can't you tell?
And you watched from the wings of the late show
Roses by your feet are red for me you said

Baby doll, baby doll, baby doll, baby doll
Baby doll, baby doll, baby doll, baby doll
