Henrietta we got no flowers for you  
Just these three miserable cunts  
Sitting on the back seat banging on the off beat

We know you love us and you probably do  
Although your husband may cut us  
He?s an animal though everything is possible

Give us a kiss and maybe we can go out  
It?s hard to miss you when you follow us about  
Buy us some shoes and maybe take us for cola  
We?ll get you there in some filthy big gondola

And it's clean out the bank and bump off your daddy  
You can come live with us amongst the has beens and  
the addicts  
These are crazy times down at Costello music  
You can answer the phone and talk anyway you choose  
it, come on  
Oh, come on, oh, come on

Dear Henrietta we?re just three lonely boys  
Though the girls love us we?re so  
Into you incredibly we?d love to see you terribly

We?d love to hate you but we don?t have no choice  
Come be our wa ha ha ha  
Honey, honey three four one time once more

Give us a kiss and maybe we can go out  
It?s hard to miss you when you follow us about  
Buy us some shoes and maybe take us for cola  
We?ll get you there in some filthy big gondola

And it's clean out the bank and bump off your daddy  
You can come live with us amongst the has beens and  
the addicts  
These are crazy times down at Costello music  
You can answer the phone and talk anyway you choose  
it, come on
