

Feeling "Dance For The Lights"

Visit "[Dance For The Lights](#)" on MotoLyrics.com

Tell me are the crazy clothes a cry for help?
I think I'd like you if you'd smile, but you don't smile.
Stand aside and count your motions, keeping to
yourself
It's just a waste of time. Don't waste my time. Ooo, just
dance

Dance like you dance when you love someone,
Dance like you dance when you love someone,
And if you've got no one just look above your pretty
head
And dance for the lights, for the lights, for the lights.
[x2]

Turn me down again, I come back, turn me down,
You think you hurt me, but you're wrong, it turns me on.
No one gets to shine forever, no one gets to change
the weather
Gonna sing until it stops raining, and when it stops
we'll...

Dance like you dance when you love someone,
Dance like you dance when you love someone,
And if you've got no one just look above your pretty
head
And dance for the lights, for the lights, for the lights.
[x2]

You've got that look again in your eyes, ooh ooh
The lights are in your, the lights are in your eyes,
The lights are in your eyes
The lights are in your, the lights are in your eyes,
The lights are in your eyes

Dance like you dance when you love someone,
Dance like you dance when you love someone,
And if you've got no one just look above your pretty
head
And dance for the lights, for the lights, for the lights.
[x3]
