Half past eight and you're late  
Coffee's cold, what a state  
They've dragged you down

Fate's got you scraped  
Work to death  
Can't you turn them words around?

Is it really what you want?  
Is it really what you need?  
Is it really what you choose, my dear?

Is it really what you want?  
Is it really what you need?  
Is it really what you choose, oh, oh?

The world is in your hands  
The world is in your hands  
The world belongs to those of us  
Who still believe we can

And it matters what you do  
Though they all look down on you  
'Cos it's better that you've come from nothing  
Than nothing comes from you

Come with us, come with us  
Come with us, come with us  
Join with us, join with us  
Join with us, join with us

Don't make a sound  
Count your pennies  
Count your pounds  
There's no way out

What will you do  
When all love gives up on you?  
Can't turn around

Is it really what you want?  
Is it really what you need?

Is it really what you choose, oh, oh?

The world is in your hands  
The world is in your hands  
The world belongs to those of us  
Who still believe we can

And it matters what you do  
Though they all look down on you  
'Cos it's better that you've come from nothing  
Than nothing comes from you

Come with us, come with us  
Come with us, come with us  
Join with us, join with us  
Join with us

We've got a place and it's here for you  
For all we ever wanted was a different view  
I never knew somebody live with so much pain  
If you open your heart, come with us and we'll take you  
away

Come with us, come with us  
Come with us, come with us  
Join with us, join with us  
Join with us, join with us

Come with us, come with us  
Come with us, come with us  
Join with us, join with us
