i like you better
i like you better

though science gets the best of me
my light punked out on me
i wanted to hold you forever
forever forever forever
forever forever forever

anyway, did you hold it
goddamn
got to roll with it
roll with it

any way, just hold
and i get burned
and i get burned
and i get burned

i can't think no more
i can't think
i can't use my brain
i can't think no more
i can't think
i can't use my brain

i like you better
i like you better

the sun's just the best of me
don't let it come down on me
and i wanted to hold you forever
forever forever forever
forever forever forever

anyway, did you hold it
goddamn
got to roll with it, roll with it
anyway, just oh, and i get get burned
and i get burned, and i get burned

i can't think no more

i can't think
i can't use my brain
i can't think no more
i can't think
i can't use my brain
i can't think no more
i can't think
i can't use my brain
i can't think no more
i can't think
i can't use my brain

i like you better
i like you better
i like you better
