These lyrics are from the dual 7"EP and are correct!!!

When i see the ocean it means i'm home.
Just give me the one wall I can hold the world at bay.
Put your camera down this is not a zoo.
Any serious miracle is not for keeping now.

And i'm a lioness when it comes to you!
If they say a word it'll be the last mistake they get a
chance to make.
And i'm a straight-up ghost since you wrote me off.
Don't need pride of place,
But in your good books i think i might rate a page.
The trace effects of these foreign wars,
I'm not sitting it out i'm still in shock.
And this cold old orbit never fails.
As the city sleeps - we fly into the night.

And i broke parole just to get to you!
At a stupid show i thought, "this can't be real",
i threw a McEnroe
And i'm a straight-up ghost in a tattered cape.
Too small to fail but, baby, someone's gonna love me
someday.
