Good enough's not good enough

Don't complain that you've got it tough

With all you have your life's a bore

Can't relax you want so much more

Blind needs won't set you free

Can't you see that

Time is slipping away

But I got to say

CHORUS:

How much is enough? when your soul is empty

How much is enough? in the land of plenty

When you have all you want and you still feel nothing at  
all

How much is enough, is enough

Gravity may bring you down

But harmony could spin you round

Information ariel

Says buy buy buy material

Give take all day long

Can't you see it's

Hopeless being strong

When you live it wrong?

CHORUS

So give me your attention

I know it's getting late

While we were dreaming

Something slipped away

We're drowning in possessions

Playing tricks with our minds

Lost from one another

Baby put your hand in mine

Time is slipping away

But it's not too late

CHORUS
