I will not speak strangely of this  
Just put myself where you are

I will not speak strangely of this  
Just put myself where you are  
Life is so much clearer adrift  
Just put myself where you are

Your wish is my sentence

Your truce can't deny  
Blocked veins in the system  
I think there you are

I just put myself where you are

I could come much closer than this  
To put myself where you are  
But if life is just to hold and resist  
I'll lose myself

Your wish is my sentence  
Your truce can't deny  
Blocked veins in the system  
I think there you are

I just put myself where you are  
I just put myself where you are

Your wish is my sentence  
Your truce can't deny  
Blocked veins in the system  
I think there you are

I just put myself where you are

I will not speak...  
Life is so much clearer...  
I could come much closer...
