Hey read this line my friend  
Remember when you were  
Alone and stuck alone and brave

Now hear this voice of change  
You wanna come back home  
Come back to dance and sing along  
And you fall

Brotherhood is the only way  
To get along day by day  
More than brothers  
More than friends  
We're back with our brothers  
And this is the end

Brotherhood is the only way  
To get along day by day  
We won't come back home  
Unless there's something wrong

We are one voice and look  
We make some noise for fun  
When the night come  
We are the drunks

We are one breath and so  
We are the friends that you  
forgot when you were young and stuck  
And you fall
