Talkin' 'bout you and me is nothin' short of a jubilee
Everythin' you gave to me is mine
The things I didn't quite demand now I finally
understand
And this I'll say until the day I die

Leavin' flowers at my doorstep, droppin' notes in the
mail
Persistence must be pumpin' in your veins
Tellin' friends that you love me, showing up at
everythin'
Funny how I do not feel the same

Oh, but it's too late, baby, used to keep me hanging
You left me waiting by the phone
And how I love to see your achin' breakin'
Beat up, shaken, sorry blubberin' heart

Used to be you and me sittin' underneath the tree
Everything was fine as I could see
Teasin' me with your rhymes, watchin' all the girls go
by
Think I'm blind? Oh honey, no not me

I would sit by the window waitin' for you to call
Fireflies were dancin' in the trees
And sweetie pies, from other places givin' them all your
love
How did you ever find the time for me?

Oh, but it's too late baby, used to keep me hangin'
You left me waitin' by the phone
And how I love to see your heart

She's not mine, you stood by, sweetie pie, oh, not I
I was waitin' by the phone, waitin' for you to call
Think I'm blind, oh I know, I'm not I told you so
And if I ever see you and me 'neath that tree
Kissin' what's left today, trust me never happenin'

You didn't say that you loved me
You didn't never love [Incomprehensible]

You didn't ever say if you loved me
You didn't, your love was so unkind

Ooh, she's from Mars, sweetie pie
Ooh, watch you go out that door
Ooh, singin' song won't be long
Ooh, watch you go, never stops

Talkin' 'bout you and me is nothing short of a jubilee
Everythin' you gave to me is mine
The things I didn't quite demand now I finally
understand
This I'll say until the day I die

Oh, but it's too late, baby, used to keep me hanging
You left me waiting by the phone
And how I love to see your achin', breakin'
Beat up, shaken and sorry blubberin' heart

Oh, bloody you, you, you, got it every time you do
Talkin' 'bout you and me is nothin' short of a jubilee
Everythin' you gave to me, everythin' you gave to me

Talkin' 'bout you and me is nothin' short of a jubilee
Achin', breakin', beat up, shaken and sorry blubberin',
blubberin'
Blubberin', blubberin', blubberin', blubberin'

Talkin' 'bout you and me is nothin' short of a jubilee
Talkin' 'bout, talkin' 'bout, talkin' 'bout, talkin' 'bout
Blubberin', blubberin', blubberin', blubberin'
Achin', breakin', beat up, breakin', busted, busted,
broken
Beat up, strapped down, held down, unfriendly
