(N. Finn/T. Finn)  
Niwhai she's so fly  
making it happen  
Niwhai be my witness  
five satellites in just one night  
Niwhai pacific sister  
her father's son  
she was something precious  
and we all love what she's become  
strange attractor  
something wicked  
paint her golden buddha  
you're a blinding flash across the sky  
Niwhai sequinned slipper  
fly by radiating light  
grant her secret wishes  
five satellites in just one night  
Niwhai she's so fly  
making it happen  
grant her secret wishes  
five satellites in just one night
