Now I know what in need to do  
Become the man I believe I am  
Now I know what I've got to try  
To become a man or lay down in the quiet  
Love my girl  
Get a job  
Feed the world  
Goose a god  
Is there something I should know now to make it work  
tomorrow  
Cause it's night and I fear the wolf  
He says one thing but does another  
Never wanted to blood  
Of I can't see she day  
Now that I've buried my life away  
Can I dig it out again

Believe in all the good things you keep inside  
There is no freedom in life without freedom of mind  
I find myself running from fate whether or not I'm  
haunted by circumstance  
Everyday rearranging  
Wind a waves in the cool of the Puget sound  
Remembering a reason to be born  
Taking back the hope that men destroy  
Don't burden your life when you can fill it up with joy  
Believe in all the good things you keep inside  
There is no freedom in life without freedom of mind  
I find myself running from fate whether or not I'm  
haunted by circumstance  
Every day rearranging  
Wind and waves in the cool of the moonlit sound  
All in a cloud rumored tears of faded crowds  
Remembering a reason to be born  
Taking back the fire from the four corners  
I can't bury my life when I can fill it up with joy  
I can't bury my life when I'm lucky to have a choice  
I'm not American  
I'm not European  
I'm not Russian  
I'm not Japanese

I've been thinking about tomorrow  
Always sinking  
Always sorrow  
I'm not American  
I'm not European  
I'm not Russian  
I'm just me  
I'm just me  
I'm just me
