Shapes shimmer in your colours
Square, circle, red, yellow, blue
Melding into technicolour
Of my dreams of truth of youth of you

We'll see a new congregation
They're greeting me and you
We'll have a new conversation
Sing it 'til we're blue

On the up I'm coming across the rebellion inside
Every thing you had said you would do
And on the down I'm coming across the remorse, the
remorse, the remorse
For every time I didn't come clean on me for you

We'll see a new congregation
They're greeting me and you
We'll have a new conversation
Sing it 'til we're blue
We're gonna sing it...

No No No No,
We won't do what they, say
No No No No.
We won't do, we won't do what they
No No No No,
Won't do what they say, no.
