Draw My Life

There's something everybody knows
There's one place everybody goes
I've got this notion that it isn't what it seems
That I've been living in a dream

Draw me a picture
Draw it in color
'Cause I wanna see my life
Through someone else's eyes

Beautiful shadows in my mind
They're all that's left of your design
Scattered all over like the sun in our room
Crawling all over like June bugs in June

Draw me a picture
Draw it in color
'Cause I wanna see my life
Through someone else's eyes

I'll find my way again I guess
I never thought that I could make such a mess
I got this feeling that it's gonna be alright
And I'll begin again tonight

Draw me a picture
'Cause I wanna see my life
Through someone else's eyes

Draw me a picture
Draw it in color
'Cause I wanna see my life
Through someone else's eyes
