She was so little and she was so kind to me
And when I took her in my arms she agreed
I let her in my car to take her for a ride
Now she always stays with me side by side.
Monza is her name she's with me every day
Monza takes good care of me
Monza as strong as can be
Monza will give her life to help me win any fight
It's a pity that she can't talk 'cause Monza is my dog

I never thought I love a dog the way I do
But when I come home late and see her it is true
I makes me feel at home be saved and be loved
though
And I will never doubt this doggy love ain't true.
Monza is her name she's with me every day
