Avoid disaster
We must stop sleeping
We better wake up (wake up)
Wake up (wake up) before we start drowning

You know we lie we lie to ourselves
We lie we lie to ourselves, yeah

My ears are ringing from all your screaming
You better face it (face it)
Face it (face it) before you've wasted away

You know we lie we lie to ourselves
We lie we lie to ourselves, yeah

Wake up, wake up, wake up and start singing
Wake up, wake up, wake up and start singing
Hit them in the heart

You're always running trying not to stumble
But you have to wait it (wait it)
Wait it (wait it) so let's not lie this time

You know, we lie we lie to ourselves
We lie we lie to ourselves, yeah
