### "Heart Healthy"

Visit "[Heart Healthy](#)" on [MotoLyrics.com](http://MotoLyrics.com)

The sun is always warmer  
When we're not in winter  
The ice is always melting  
When you're already falling to the sidewalks  
Cursing up a storm  
Praying that I would catch you  
But you know you've gone too far

So I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before

I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before

I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before

I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before

I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before

I'll run across the state line  
It's never felt that far  
This is not a movie  
The end's been done before
