Before the beginning of time
nothing was written yet
the desiples of darkness
chose the rival in the god of black arts

angels started falling
every word was a law printed on the endless iced
desert
everything is still locked into the right hand

the forces that created and ruled the universe
are the origin and everything now
the fall of heaven will torment the prayers
then he will rise on his throne over everyone

lead by the strength and the power
of the sacred thelema's breed
he will be back on Golgotha
and will be crucified again

surmounting everything and everyone
he will burn into the depth
the malevolent angels
sacrified by chaimed lies

in the name of nothing and none

he will split the sky red of blood
drying the sea of falsness
pacifying the wind of pain
extinguishing the flames of the vulgar age
his strength be the obsession
the torment of the body
the souls and the mind of the deceiver

that year the rival strong and cruel
will do the atrocious sacrifice
the atrocious vengeance of the snake out of the depths

in the heaven wide open will be our salvation
the power and the reign of the master - Satan
will the god of falsness be expelled

the accuser of our brothers

good and evil life and death
will come to him and only him
everything will be back ours
