Summer came and went,
As quickly as could be.
Well, I never knew
Your feelings for me.
Our love for each other
Is really strong.
Well, that is why
I wrote this song.
(chours)
And we'll start a story
Once upon a time
We'll live in a fairy tale about you and I
And we'll include everything from sadness to laughter
And in the end
We'll live happily ever after.
What is all this sadness coming to?
Well, I just want to say that
"I love you."
What I'm sayin'
It comes from the heart.
If we keep on dreamin'
This fairy tale will start.
