When I first looked in your eyes  
I saw forever.  
There was no doubt in my mind  
You were meant to stay.  
You helped me understand life.  
I saw things in a whole new way.  
I now know what love really is.  
I've seen forever in a day.  
(chours)  
Forever in a day  
Hand in hand, heart to heart.  
We'll be together forever,  
Forever in a day.  
Our love is like magic  
But it won't disappear.  
My love for you gets stronger  
Every time you are near.  
I can't imagine living without you.  
You're all I have to live for.  
All my love I'll give to you  
Forever we will stay, that I know for sure.  
(chours)
