This is McPeace, can I take your order?
Yes I'd like to order an end to this war
This is McPeace, where are the customers?
They're all out, baby buying war

I can't see the happy for all the sad
I can't see the good for all the bad
I can't see the rich for all the poor
I can't see the peace for all the war

This is McPeace, can I take your order?
Yes I'd like to order an end to this war
This is McPeace, where are the customers?
They're all out, buying war

I can't see the happy for all the sad
I can't see the good for all the bad
I can't see the rich for all the poor
I can't see the peace for all the war
I can't see the happy for all the sad
I can't see the good for all the bad
I can't see the rich for all the poor
I can't see the peace for all the war

This is McPeace, can I take your order?
Yes I'd like to order an end to this war
This is McPeace, where are the customers?
They're all out baby, buying war
